Saved me thousands! ★★★★★

“I can't thank John Gagnon enough for the great service in repairing my Dodge Ram pickup. I had an issue with the camshaft and after talking with John and the suggestion he had in repairing it, I had the truck towed over. Another garage had suggested a new engine replacement, a second garage suggested putting in a used engine, and John suggested a new cam with possible lifters. Got the truck back within a week and have been driving it daily since with no further issues, a joy to drive the truck again. I found John to be honest and more than fair in how I was taken care of.”

- Scott S. (09/26/2024)
